

Did your Health Insurance Coverage Change?

The new year can often mean a new Health Insurance Plan for you or a family member. If your plan did not auto renew, you shopped for a new plan, or the plan changed with your employer, you will need to notify us so we can send your Out of Network insurance claims to the correct location. Not updating notifying us cause a delay in your possible Out of Network reimbursement.

What to do if your plan has changed:

1. Notify your Clinician that your Health Insurance Plan has changed
2. We will then send you a new electronic signature form titled "Release to Bill Insurance"
